

King Heating Products Inc.

Your Aquamax Indirect-fired water heater is protected by these King Heating Products Inc. warranties. These warranties are applicable to original consumer purchasers only.

WARRANTY COVERAGE FOR RESIDENTIAL USAGE

The warranties listed in this section shall apply to Aquamax water heaters used in a residential setting by original consumer purchasers only. A “residential setting” as used herein shall mean usage in a single-family dwelling in which the original consumer purchaser of the water heater resides on a **permanent basis**. “Residential setting” shall also mean usage in a multiple family dwelling providing that an Aquamax water heater services only one (1) dwelling in a multiple family dwelling.

King Products Inc. warrants that it will repair or replace, at its option, any defective or malfunctioning component of the Aquamax water heater during the first year after the original date of installation in the dwelling. It is expressly agreed between King Heating Inc., and the original consumer purchaser that repair or replacements are the exclusive and sole remedy of the original consumer purchaser.

During the remaining lifetime, up to 15 years, of the stainless steel water heater, King Heating Inc., will repair or replace, at its option, any water heater having a defect or malfunction that results in a water leak from the outside jacket, inner tank, or heat exchanger as a result of normal use and service. It is expressly agreed that between King Heating Inc. and the original consumer purchaser that repair or replacement is the exclusive and sole remedy of the original consumer purchaser.

Should a defect or malfunction result in a leakage of water within the above-stated warranty periods due to defective material or workmanship, malfunction, or failure to comply with the above warranty, such defect or malfunction having been verified by an authorized, King Heating Inc. representative, then King Heating Inc. will replace the defective or malfunctioning water heater with a replacement water heater of the nearest compatible model available at the time of replacement.

If King Heating Inc. is unable to repair or replace the water heater so as to conform with this warranty, after a reasonable number of attempts, then King Heating Inc. will provide at its option, either a replacement product, or a full refund of the purchase price. These remedies are the consumer purchaser’s exclusive remedies for breach of warranty.

If, at the time of a request for service, the original consumer purchaser cannot provide a copy of the original sales receipt, deed, or equivalent document, then the warranty period for the water heater shall be ten (7) years from the date of manufacture of the water heater for stainless steel models.

WARRANTY COVERAGE FOR COMMERCIAL USAGE

The warranties listed in this section shall apply to Aquamax indirect-fired water heaters used in a commercial setting by original consumer purchasers only. A “commercial setting” as used herein shall mean any usage not falling within the above definition of a “residential setting”.

King Heating Inc. warrants that it will repair or replace, at its option, without charge, any defective or malfunctioning component of the water heater during the first year after the original date.

During the second through seventh years with stainless steel models, after the original date of delivery to the original consumer purchaser, King Heating Inc. will repair or replace, at its option, without charge, any indirect-fired water heater having a defect or malfunction that results in a water leak from the outer jacket, inner tank, and heat exchanger as a result of normal use and service. It is expressly agreed between King Heating Inc. and the original consumer purchaser the repair or replacement is the exclusive and sole remedy of the original consumer purchaser.

Should a defect or malfunction result in a leakage of water within the above-stated warranty periods due to defective material or workmanship, malfunction, or failure to comply with the above warranty, such defect or malfunction having been verified by an authorized King Heating Inc. representative, then King Heating Inc. will replace the defective or malfunctioning water heater with a replacement water heater of the nearest comparable model available at the time of replacement.

If King Heating Inc. is unable to repair or replace and the water heater so as to conform with this Warranty after a reasonable number of attempts, then King Heating Inc. will provide, at its option, either a replacement product, or a full refund of the purchase price. These remedies are the exclusive remedies of the original consumer purchaser.

See reverse side for exclusions, limitations, remedies, and service request information.

WHAT IS NOT COVERED BY EITHER OF THESE WARRANTIES

King Heating Inc. does not warrant:

- 1.) Defects or malfunctions resulting from improper installation or failure to maintain and operate the water heater in accordance with the printed instructions which accompany the Aquamax indirect water heater.
- 2.) Defects or malfunctions resulting from consumer damage, such as: (A) improper maintenance. or (B) misuse, abuse, accident, or alteration.
- 3.) Defects or malfunctions on water heaters where the original serial number cannot be readily determined.
- 4.) Service calls not involving malfunction or defects in materials or workmanship, and the original consumer purchaser shall pay for such calls.
- 5.) Aquamax water heaters installed outside of the United States and Canada.

- 6.) Aquamax water heaters repaired or altered without prior written approval of King Heating Inc. so as to adversely affect their reliability.
- 7.) Components of the water heater which are not defective, but must be replaced during the warranty period as a result of reasonable wear and tear.
- 8.) Components of the water heater which are subject to warranties, if any, given by their manufacturers. King Heating Inc. does not adopt these warranties.
- 9.) Water conditions must be below stated values (in Owner's Responsibilities section 9) for water hardness, corrosive substances &/or total dissolved solids. If these conditions are not met, limited lifetime warranty does NOT apply, and warranty becomes 3 years from the date of install.
- 10.) Malfunctions resulting from, or repairs necessitated by, a failure to maintain an indirect-fired water heater free of water sediments or scale deposits.
- 11.) This warranty does not extend to labour costs, shipping charges, delivery expenses, or administrative fees incurred by the original household consumer purchaser in repairing or replacing the water heater or its components. **King Heating Inc. will not accept claims for labour costs incurred by the original consumer purchaser in removing or reinstalling an Aquamax water heater and its components.**
- 12.) Malfunctions resulting from, or repairs necessitated by, uses of the Aquamax water heater for purposes other than that for which it was designed, or resulting from flood, fire, wind, or lightning.

OWNER'S RESPONSIBILITIES

The owner or installer must:

- 1.) Have the storage tank assembly installed with a vacuum relief valve and temperature and pressure relief valve in accordance with local state and federal codes and ordinances bearing the listing marks of the Canadian Standards Association (CSA).
- 2.) Operate the storage assembly at pressure below that shown on the rating plate on the pressure relief valve.
- 3.) Keep the storage tank free of damaging scale deposits.
- 4.) **Make provisions so if the storage tank or any component part or connection should leak, the resulting flow of water will not cause damage to the area in which it is installed. A water heater temperature and pressure relief valve should be piped to the nearest drain in order to avoid damage in the event the valve is activated.**
- 5) *****It is mandatory that if copper pipe is being connected to the water heater, dielectric unions or brass unions, NOT COPPER, MUST be used.******

The warranty hereunder does not apply to defects resulting from:

- 6) Freezing, excessive pressure or leaks at water connections or any other similar case.
- 7) Failure of a component, control or component part other than a component part manufactured solely by King Heating Products Inc.

8) Any cause similar to any of the above, not resulting solely due to defective material and/or workmanship.

9) Condition resulting from exposure to foreign particles in the tank and exposure to chlorine, total dissolved solids or other corroding substances with content higher than 100 parts per million. Water hardness of maximum 12.9Gpg. Water PH value between 7-8.5

LIMITATION OF WARRANTIES AND REMEDIES
