Eco-King Supreme Boiler

Same great features:

94% AFUE efficient

Simple to install saving installer time and money and homeowner valuable space

2 models: Combi boilers supply all your on demand hot water and home heating needs and H model provides heating and hot water via an indirect tank

Universal parts on all models and unique construction making Eco-King the easiest to service boiler on the market

Parts included in ALL boilers:

Grundfos variable speed pump

12L pre-charged expansion tank

Stainless Steel heat exchanger

Unique gas valve: cleaner burning, self adjusting and interchangeable between NG & LP

Simple to use controls and LCD screen

Domestic Hot Water (H & C model units)*		H100 / C100	H140 / C140	H200 / C200
Nominal Input in DHW Mode	Btu / hr	16,000 - 105,000	19,800 - 137,000	26,900 - 185,000
Max Output in DHW mode	Btu / hr	95,000	122,000	167,000
Tap water with $\Delta T = 90^{\circ}\text{F}$ in C Models	usg / minute	2.1	2.6	4
Tap water with $\Delta T = 70^{\circ}\text{F}$ in C Models	usg / minute	3.4	4.2	6.6
Central Heating Operation		H100 / C100	H140 / C140	H200 / C200
Nominal input (0-2000ft) in CH mode	Btu/hr	16 - 90,800	19,800 - 113,600	26,900 - 159,000
Max. Output (0-2000ft) in CH mode	Btu/hr	85,000	106,500	150,000

Eco-King Combi boilers continuous hot water output for cold weather climates**:

**hot water production will increase or decrease depending on climate and incoming water temperature and all figures below are approximations
