## King Heating Products Inc. King Series Indirect Water Heater Limited Lifetime Warranty

**Water Heaters covered by this warranty include:**

**King 42 through King 119, King 80 Plus & King 119 Plus, King Storage / Buffer Tanks**

### Limited Warranty Coverage

King Heating Products Inc. ("King Heating") warrants to the original purchaser that this King series stainless steel water heater and its component parts are free from defects in materials and workmanship, subject to the terms and conditions set forth below. This warranty applies only to products installed in accordance with local codes and the manufacturer's installation instructions by a qualified professional heating contractor.

### Warranty Periods

The warranty period begins on the date of installation. If the date of installation cannot be verified, the warranty period shall be deemed to have commenced ninety (90) days after the date of manufacture. The coverage continues as long as the product remains at the site of the original installation.

| Components Covered                           | Period of Coverage                  |                          |
|----------------------------------------------|-------------------------------------|--------------------------|
|                                              | Residential Installations           | Commercial Installations |
| <b>Stainless Steel Tank and Heating Coil</b> | 10 years – 100%<br>11 + Years – 25% | 5 years – 100%           |
| <b>All other components</b>                  | 1 Year                              | 1 Year                   |

\*Tanks should be registered online at [www.ecokingheating.com](http://www.ecokingheating.com) within 60 days of installation.

- \* *Residential Usage is defined as a being used for a single-family home serving a single living unit or serving a single living unit in a multi-family building.*
- \* *Commercial Usage is defined as any installation that does not fall within the definition of Residential Usage.*

### Manufacturer's Responsibility

During the applicable warranty period, King Heating will, at its sole discretion:

- Supply New or Remanufactured components to replace any defective component or the tank itself if found to have failed due to a manufacturer's defect. If an exact replacement is not available, then a model with as close as possible storage capacity and recovery capacity will be supplied in its place.
- Replacement tank or parts must be installed by a qualified professional who is trained to install and/or repair Eco-King products.
